Type of facility	lunch box service				
Type of waste	①left over meals (30 %) ②vegetable (20 %) ③meat (10 %) ④fruit (5 %) ⑤rice (10 %) ⑥fish (5 %) ⑦noodles (5 %) ⑧processed food (10 %) ⑨others (5 %)				
Total amount	Average weight 180 kg/day				

I recommend the GOMIXER, a wonderful machine for organic waste processing.

Comment from user:

Before installing GOMIXER, we had to ask pig farms to take our food waste. However, the farms stopped accepting it, so we needed to find a solution. Then we found GOMIXER and decided to use it from Feb. 1995.

At first, we chose a hand dumping system, so that our staff had to carry a pail to the machine everytime. And later, in order to alliviate the works of staff members, we changed to a vaccum svstem, which made evervbody feel more relaxed and made thinas more convenient.

In our industry, reducing waste is a very serious issue. After carefully considering our responsibility as residents of this planet, we are proud of ourselves for making the best choice.
